kinfetare83@gmail.com ⋄ [linkedin](#) ⋄ [Github](#) ⋄ [Website](#)

OBJECTIVE

Here I am to showcase my honed skills, gained through dedicated efforts, in tackling challenges that are not typically exist in developed countries which demonstrate my abilities and dedication contributing **30+ Open-source** projects

EDUCATION

BSc. Computer Science, Addis Ababa University - [Top **6** Universities in Africa](#) , **CGPA - 3.89**   2022 - 2025

[**A2SV - Africa To Silicon Valley - Backed by Google**](#), First Ever Coding Acadamy   Nov 2022 - Present

- A2SV is a **non-profit** organization that upskills African students and connects them with to tech companies.
- A2SV students have a **70%** success rate in the interviews and have placed **50+** student at **Google**, **Bloomberg**, **Amazon**, **Databricks** , **Palantir** and **LinkedIn**.

SKILLS

Programming Language	Javascript , Python , Typescipt , Java , Go, C++, Dart ,
Frameworks and Other	NodeJS , Django, ReactJs /Nextjs, Svelte , Astro, tRPC ,Flutter ,RN , Tailwindcss
Technologies	Firebase , Supabase, Vercel , Netlify , Onrender , Docker , Clerk, NextAuth
Database and related	MySQL , PG , MongoDB , Redis , PrimsaORM, Drizzle , Turso

EXPERIENCE

[**Loglib**](#) - Core FullStack Developer   *Addis Ababa* , Aug 2023 - Present

- Built **1** 'st OSS **AI-first** web analytics tool for performance optimization in Ethiopia with a team of **3** Dev.
- **Orchestrated** on project catering to **1000+ real-time** users spanning the globe - **Feature YC backed startup**

[**ArezArmada**](#) - Lead - Core FullStack Developer   *USA* , Oct 16 - Present

- **Led** a **team of 5+ engineers** and **designers** to design and implement end to end platform that can connect American business to African talent - **Feature YC backed startup**
- **Develped** and **Implement** a **monorepo** project with **core** features all way from frontend like **Nextjs13 App router** to backend technologies - **tRPC** , **Email ingestion** , **Edge** Functions , **Rate Limiters** as well

[**KINFISH T**](#) - Lead Software Developer - Founder   *Welkite* , Feb 2018 - Present

- **Drove 45%** growth in tech awareness through engaging education initiatives, communicating.
- **Led** a team of **5** Developers and achieved more than **90%** success on development and products.

PROJECTS

[**RVTCS**](#)

- **Developed** an **OpenSource** full-stack tech **stack** like MERN with user requirements, technology selection, **testing**, and iteration with **fasten** the development experience **3x** than usual. **verified**
- Published an **NPM package** for efficient development with the RVTCS stack with **500+** weekly **download**.

[**AfriFarm**](#)

- **Developed** an a platform that offers organized documentation and video resources for learning specific topics
- **Integrated** a page for diverse **job** and **internship** opportunities worldwide with **20+ jobs** post per day.

[**AnonThoughts**](#)

- **Develop** a platform where people can share thoughts for native support, discussion , recent events
- **Used** by more than **200 +** anonymous user with **14000 + API** request for post

ACHIEVEMENTS

- Top **5 Hackton** Finalist   - Solved **800+** coding challenges over all
- Score the **1st** highest score with in my region **30000+ Student**

HOBBIES

Open Source Contribution like **Supabase** , **Vercel** and other **10+** , Play Chess , Playing - Watching Football , Random Physics Experiment , Weekly Competitive Programming Contest(**1200+** rated - codeforces)
